

Construction and Demolition (C&D) Materials

Under the City's Construction and Demolition Recycling Ordinance (07-18), certain projects are required to recycle or reuse:

- » **75% of concrete and asphalt**
and
- » **50% of all other debris generated**

The ordinance is intended to encourage developers and contractors to meet waste diversion commitments and to implement approved recycling plans.

If your project is covered by this ordinance, you must first submit a **Pre-Project Waste Management Plan** to the City's Community Services Department.

To download and complete your Waste Management Plan forms, please visit:

- C&D section of **cityofirvine.us**
- Click on the link in the upper right area of the page for Construction and Demolition
- Go to Ordinance & Requirements
- Then follow the steps to submit your plan electronically

Community Services | *Environmental Programs*

Visit the Construction and Demolition Recycling section of ***cityofirvine.us*** to see:

- » Details about what types of projects the Ordinance covers
- » Downloadable ***Pre-Project*** and ***Post-Project*** forms, including samples and instructions on how to complete them
- » Information about the refundable Waste Diversion Fee Deposit
- » Locations of authorized facilities that accept C&D debris for recycling
